5. What are the possible outcomes of my investment?

There are many possible outcomes associated with an investment in the Fund. Unit Holders can potentially make profit either (i) when the Fund declares and pays out income distributions; or (ii) when Unit Holders redeem their units in the Fund when the market value of the Fund's portfolio and its NAV per unit increases. However, this also means that the market value of the Fund's portfolio and its NAV per unit may fall and as a result, Unit Holders may lose part of their capital. Unit Holders should take note that the value of an investment in the Fund and its distribution payable (if any) may go down as well as up and are not guaranteed. Unit Holders should also take note that investment in the Fund involves some degree of risk and that the value of their investment is at risk depending on the underlying investments of the Fund.

6. What are the key risks associated with this product?

General Risks

Market Risk	Market risk refers to the possibility that an investment may lose value because of a general decline in financial markets due to economic, political and/or other factors, which may result in a decline in the Fund's NAV.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavorable prices. Liquidity risk of the Fund is also the ability of the manager to honor redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. The Manager will actively manage the liquidity of the Fund and/or where available, borrow cash and obtain cash financing on a temporary basis as permitted by the relevant laws to manage Unit Holders' redemption requests.
Inflation Risk	This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
Manager's Risk	This risk refers to the day-to-day management of the Fund by the Manager which will impact on the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
Loan Financing Risk	This risk occurs when investors take financing to finance their investment. The inherent risk of investing with financing includes the possibility that investors may be unable to service the repayments obligations. In the event that units are used as collateral, investors may be required to top-up their instalments if the price of the units falls below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the financing. Investors who intend to finance an investment in Islamic unit trust fund, or for that matter any Shariah-compliant investment, are advised to seek for Islamic financing to finance their investment.

Specific Risks

Stock Specific Risk	Price of a particular stock may fluctuate in response to circumstances affecting individual company such as adverse financial performance, news of a possible merger or loss of key personnel. Any adverse price movements of such stock may adversely affect the Fund's NAV.
Shariah Status Reclassification Risk	<p>(a) Shariah-compliant equity securities</p> <p>The risk refers to the possibility that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant during the periodic review of the securities by the SAC of the SC or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such securities.</p> <p>Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:</p> <p class="list-item-l1">(i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities is equal to or exceeds the investment cost on the effective date of reclassification of the list of Shariah-compliant securities ("Reclassification") by the SAC of the SC or date of review ("Review") by the Shariah Adviser. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of</p>

	<p>Reclassification or Review should be channeled to <i>baitulmal</i> and/or charitable bodies as advised by the Shariah Adviser.</p> <p>(ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channeled to <i>baitulmal</i> and/or charitable bodies as advised by the Shariah Adviser; or</p> <p>(iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.</p> <p>(b) Sukuk or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes or Islamic structured products</p> <p>This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes or Islamic structured products invested by the Fund may be declared as Shariah noncompliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such bond or money market instruments or deposits or collective investment schemes or structured products.</p>
Islamic structured products risk	<p>The NAV of the Fund may be affected by the valuation of the Islamic structured products in which the Fund invest from time to time. Factors that may impact the valuation of the Islamic structured products include but are not limited to the prevailing market price and volatility of the underlying reference asset(s), interest rate levels, time to maturity, foreign exchange rates, increased cost of hedging and/or associated unwinding costs in the event of early redemption. Any changes in the aforesaid factors could positively or negatively affect the valuation of the Islamic structured products thereby impacting the NAV of the Fund. As a result, the Fund's NAV will be exposed to potential price volatility, which depends on the valuation of the Islamic structured products that the Fund invested in. To mitigate this risk, the investment of the Fund in Islamic structured products will not exceed 10% of the Fund's NAV.</p>

DIFFERENT TYPES OF UNIT TRUST FUNDS CARRY DIFFERENT LEVELS OF RISK. SOME ARE HIGHER IN RISK THAN OTHERS. ASK ABOUT THE RISKS BEFORE INVESTING IN A FUND AND MAKE SURE YOU UNDERSTAND WHAT YOUR FUND IS INVESTING IN.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund is valued at the close of every Business Day and you may obtain the NAV and prices of the Fund from our website at www.arim.com.my, by calling our Customer Service at 03-23325200, or by emailing us at bdd@arim.com.my.

9. How can I exit this investment and what are the risks and costs involved?

To exit this investment, you may redeem or switch out of the Fund or transfer your unit holdings to other investors.

Unit Holders can redeem their investments in the Fund on any Business Day by completing the redemption form or in such other manner as may be accepted by us and submitting it to us on any Business Day. The redemption form is available at our office, Collecting Points, and may also be downloaded from our website at www.arim.com.my. Investors who invest via our authorized distributors may redeem their investments in the Fund through their respective distributors.

A valid application to redeem units of the Fund received by the Manager before 4.00 p.m. will be processed using the NAV per unit calculated at the end of the same Business Day. Any application received after 4.00 p.m. or on a non-Business Day will be processed at the end of the next Business Day. Any incomplete application will not be processed until all necessary information is received.

There is no restriction on the frequency of redemption. Unit Holders will be paid within seven (7) Business Days after the redemption request has been received and processed by the Manager. Redemption payment can only be made via online bank transfer. No redemptions will be paid in cash under any circumstances. All bank charges for the transfer will be borne by Unit Holders. The charges will be deducted/debited from the redemption amount.

Please refer to the “Section 2 - Understands Fees and Expenses” and “Section 3 - Transaction Information” of the Master Prospectus for details on redemption, switching and transfer.

For the financial year ended 30 November 2025, the Fund registered a return of -1.11% compared to the benchmark return of -1.53%, thus outperforming the benchmark by 0.42%.

13. Portfolio Turnover Ratio

The Portfolio Turnover Ratio (PTR) indicates the frequency of turnover for a particular fund in any given calendar year. It is calculated by taking the average of acquisitions and disposals of securities, divided by the average value of the Fund for the year, calculated daily.

PTR for the Fund are as follows:

Financial Year	2025	2024	2023
PTR (time)	1.20 times	0.89 times	1.07 times

The increase in PTR for financial year ended 30 November 2025 was due to active trading activities in response to volatile market conditions during the year.

Basis of calculation for Portfolio Turnover Ratio

$$\text{Portfolio Turnover} = \frac{(\text{Total acquisition for the year} + \text{Total disposal for the year}) / 2}{\text{Average value of the Fund for the year calculated on a daily basis}}$$

14. Distribution Record

In line with the Fund's investment objective, the Fund does not intend to make regular distributions. The income distributions for the past three (3) years are presented below:
